and
Educational and Developmental
Intervention Services (EDIS)**

**Early Intervention, Special Education
and Related Services
in OCONUS Communities**

September 2005

Introduction

DoD 1010.13-R, “Overseas Assignment of Sponsors Who Have Children With Disabilities Who Are Space-Required Students in the Department of Defense Dependents Schools (DoDDS),” March 1992, authorized by DoD Instruction 1010.13, “Provision of Medically Related Services to Children Receiving or Eligible to Receive Special Education in DoD Dependents Schools Outside of the United States,” August 28, 1986, requires accurate screening and evaluation of school-aged family members before an overseas assignment to enable the identification of sponsors who need special consideration in the choice of assignments. Since 1995, when DoD began providing early intervention services to infants and toddlers outside the United States, the Military Services also have considered the special needs of these children during the screening and assignment process.

Exceptional Family Member Program (EFMP)/Special Needs Program The Exceptional Family Member/Special Needs Program is the mechanism established in all Military Services to screen and identify family members who have special medical and/or educational needs. Collectively, the OCONUS Directory, developed to identify the levels of support in overseas communities, refers to these programs as the “EFMP”. The purpose of the EFMP process is to identify family members with special needs and to assist the military personnel systems in making assignments to locations where DoDDS and the military medical departments have pre-established programs and staff.

The Directory is intended to assist the medical and educational assignment coordinators to identify those military communities outside the continental United States (OCONUS) with pre-established programs for children with special educational needs. The Directory does not identify pre-established programs or services for *special medical* needs.

Special Services for Children with Disabilities The Individuals with Disabilities Education Act (IDEA) mandates the following services for children with disabilities.

- Early Intervention Services (EIS) for infants and toddlers (birth through 2 years of age, inclusive) who have a developmental delay or a disability.
- Special Education services for children from 3 through 21 years of age who have a disability.
- Related Services for children from 3 through 21 years of age who require the services to benefit from their special education program.

Provision of Services¹ in OCONUS Locations

- The Military Medical Departments through their Educational and Developmental Intervention Services (EDIS) provide Early Intervention Services (EIS) and related services (MRS) in OCONUS locations where the DoDDS is responsible for educational services. In those OCONUS locations that are part of the United States, i.e., Guam and Puerto Rico, related services are provided by the Department of Defense Domestic Dependent Elementary and Secondary Schools (DDESS).

¹ “Services” refers to early intervention, special education and medically related services.

- The Department of Defense Education Activity (DoDEA) through its Department of Defense Dependents Schools (DoDDS) provides special education in OCONUS locations that are not part of the United States, and through the DDESS in OCONUS locations that are part of the United States.

Note: Regardless of where a sponsor whose child requires early intervention services or special education is assigned, services will be provided.

How to Use the Directory

The Directory provides information on the location of programs in each OCONUS military community. The Directory identifies the levels of support in OCONUS communities by the services that are available. Additionally, the Directory identifies specific communities that have specialized services for children with more severe or low incidence disabilities. These programs serve children with deafness, blindness, emotional disturbance, autism spectrum disorder or pervasive developmental disorder.

Limitations on Use

1. This directory is for the use of military medical departments and DoDDS to provide recommendations to personnel offices regarding the assignments of sponsors of children with disabilities to overseas locations. The civilian personnel offices may use the directory to provide information to employees about the availability of services OCONUS.
2. Matching a child's needs with resources in OCONUS communities should be made only by specially trained professionals. In the United States, there is considerable variation in eligibility criteria for special education and early intervention, program descriptions, and service delivery models. Making a recommendation based solely on a disability label may result in the assignment of a service member to a location that does not have the existing services necessary to meet a child's special needs or a sponsor not receiving an assignment to a location where services are available.

The pinpoint assignment recommendation is not made based solely on the disability category, but on the severity of the disability. All disabilities reflect a continuum of severity. Level 1 includes children with mild delays who can be accommodated at most locations through local school resources in consultation with itinerant specialists. For example, a child with a visual impairment whose only requirement is access to large print material can be supported in the majority of DoDEA schools. A pinpoint assignment to a designated Vision Impaired location is not necessary. Recommendations are made after careful review of the requirements on the child's Individual Education Program (IEP).

3. Assignment to a designated location defined by this directory should not be construed to mean that DoDEA or the military medical department will provide a specific intervention or special educational program for a child with a disability. Multi-disciplinary teams based in EDIS and/or the schools will determine the child's eligibility for early intervention or special education. If a child meets the eligible criteria, a team, including the parents, will develop an individualized education program to meet the child's needs. This means that not all children served in the United States will be automatically eligible for or have access to similar programs overseas.

How to Make Assignment Recommendations

Military medical personnel should review the medical information and, with the coordination of the appropriate DoDDS Area Office, the educational information for each school-aged family member of a military sponsor. This review includes identifying the communities where there are programs that can meet the child's needs. For children who are receiving early intervention services, future requirements should be projected and recommendations for only those communities that can and could continue to meet the child's projected school-based educational needs should be made.

Assignment managers shall consider the recommendations from the Military Medical and DoDEA review when making their decision to assign the sponsor to an overseas tour of duty. Specific guidance for assignment managers regarding sponsors who have children with special education needs is contained in DoD 1010.13R.

Note: The highest level of support is identified for each school in a community. Care should be taken to ensure that assignments are made to the specific community, not to a detachment outside the community.

Organization of the Directory

The Directory is organized so the user can search by school and/or community to determine the level of services available at the schools in that community. The enclosed charts are:

Chart 1: Identification of special education resources by country and the communities in each country. Chart includes a list of schools in the community, level of special education resources, and, as appropriate, notes about the availability of services at a specific school.

Chart 2: Listing of schools by community. Identifies type of military installation, military component responsible for provision of EDIS, and location of EDIS clinic.

Chart 3: Communities with specialized (level 3) services.

Special Education Support in Overseas Locations

For all OCONUS DoD schools, the Directory identifies the pre-existing levels of support that are available for children who have special educational needs. *Note that in communities with multiple schools, not all levels of support are available at every school.* Students may be transported to a neighboring school for services. Whenever possible, parents should seek housing in the catchment area of the school that has the pre-existing resources to meet their child's needs.

Autism Spectrum Disorder (ASD)

Code AU

- A1 Services are available to provide primary instruction in the general education classroom with limited special education consultation. Children are not dependent on additional paraprofessional (aide) support to function in the general education classroom.
- A2 Services are available to support the student's participation in the general education classroom. Direct instructional support is available in a resource room setting. Limited individualized paraprofessional support (aide) is available.
- A3 Services are available to provide structured teaching and behavior management in primarily a self-contained classroom setting.

Communication Impaired

Code CI

- C1 Part time itinerant speech/language services are available including services for children ages 3-5 who have mild articulation or language delays on an as-needed-basis.
- C2 Services are available to provide comprehensive speech and language interventions in individual or small group settings.
- C3 Services are available to provide training in the use of augmentative communication devices and/or alternate communication systems and/or FM systems in individual, small group, and classroom settings.

Emotionally Impaired

Code EI

- E1 Part time itinerant services are available on an as-needed-basis to support children in the general education classroom.
 - E2 Services are available to provide intensive teaching, behavior modifications, and counseling to the student in a part time resource room setting.
 - E3 Services are available in a specialized environment for a majority of the school day.
-

Hearing Impaired

Code HI

- H1 Itinerant services are available on an as-needed-basis to provide consultation for students with hearing impairments who can be served in the general education classrooms. Minor environmental modifications and some special materials are available. Support is provided for children whose hearing disability is typically corrected with hearing aids.
- H2 Services are supplemented by a specially trained teacher of the hearing impaired who provides limited itinerant support services in the general education classroom with resource room support, as necessary.
- H3 Services are supplemented by a specially trained teacher of the hearing impaired who provides regular itinerant services to develop communication skills. Services provided in the general education classroom with resource room support and interpreter services, as necessary.

Intellectual Disability (Mental Retardation)

Code MR

- M1 Services are available for children who have mild mental retardation and receive the majority of their instruction in general education classroom with resource room support. Independence is stressed with minimal ancillary supervision or support.
- M2 Services are available for children who have mild to moderate mental retardation and who require major curriculum modifications to receive instruction in the general education classroom. The majority of instruction maybe in a resource room setting. Limited individualized paraprofessional (aide) support is available.
- M3 Services are available for children who have moderate to severe mental retardation and require a specialized environment for the majority of the school day. A specialized curriculum, including training in activities of daily living and pre-vocational support is used.

Specific Learning Disability

Code LD

- L1 Part time itinerant or consultation services are provided in the general education classroom without resource room support.
- L2 Services are available to provide individualized instruction in the general education classroom with resource room support.
- L3 Services are available to provide the majority of individualized instruction in a resource room setting.
-

Preschool

Code PS

Note: When identifying pinpoint locations for children requiring preschool services, also consider the services likely to be required when the child transitions to elementary school.

- P1 Services are limited to speech and language support. These services may be provided through itinerant support. Locations do not have established preschool services.
- P2 Services are available for children with mild to moderate developmental delays who require daily or less frequent support in a preschool classroom setting. Limited individualized paraprofessional (aide) support is available.
- P3 Services are available for children with significant global developmental delays in preschool classroom settings. Extended preschool services are available to meet children's individual needs.

Visually Impaired

Code VI

- V1 Itinerant consultation services are provided on an as-needed-basis to support children with low vision who require equipment for providing magnification, high contrast, and/or large print, and environmental modifications for light control and/or preferential seating who can be served in a general education classroom.
- V2 Services are available to provide limited resource room instruction, under the guidance of a vision consultant, to supplement instruction in the general education classroom for children who have low vision or progressive visual disorders.
- V3 Services are available to provide pre-Braille and/or Braille instruction and orientation and mobility training to support children in the general education classroom with resource room support.
