EXECUTIVE SUMMARY

This Demographics Report, which was prepared for the U.S. Department of Defense (DoD), presents a synthesis of demographic information describing members and families in the military community in fiscal year 2005¹. Active Duty service branches include DoD's Army, Navy, Marine Corps and Air Force; and the Reserve Components include DoD's Army National Guard, Army Reserve, Navy Reserve, Marine Corps Reserve, Air National Guard and Air Force Reserve, and the Department of Homeland Security's (DHS) Coast Guard Reserve.

Overview of Military Personnel

The total number of military personnel is over 3.5 million strong, including Active Duty military personnel (1,373,534); DHS's Active Duty Coast Guard members (39,631); DoD Ready Reserve and DHS Coast Guard Reserve members (1,113,427); and DoD appropriated and non-appropriated fund civilians (811,873). DoD and DHS's Coast Guard Active Duty members comprise the largest portion of the military force (38.5%), supplemented by Ready Reserve members (31.2%) and DoD civilian personnel (22.8%).

Active Duty: Member and Family Highlights

Service Branches. The Army has the largest number of Active Duty members (486,483) followed by the Navy (357,853), the Air Force (349,362) and the Marine Corps (179,836). There are also 39,631 Active Duty members of the DHS's Coast Guard. At a total of 1,373,534 DoD Active Duty service members, the military force of 2005 is 32.3 percent smaller than it was in 1990 (when there were 2,029,300 Active Duty members). In the past fifteen years, the number of DoD Active Duty members in each service branch has declined by as little as 8.4 percent in the Marine Corps to as much as 34.2 percent in the Navy. The Active Duty decline from 1990 to 2005 in the Army and Air Force is 33.2 percent and 29.8 percent, respectively.

Ratio of Ranks. The Active Duty force has one officer for every 5.1 enlisted personnel. In comparison, the Air Force has one officer for every 3.8 enlisted personnel, the Army has one officer for every 5.0 enlisted personnel, the Navy has one officer for every 5.8 enlisted personnel, and the Marine Corps has one officer for every 8.6 personnel.

Women. Women comprise 200,470 or 14.6 percent of the DoD Active Duty force. The percent of women in the Active Duty population is greater in 2005 than it was in 1990 (from 11.5% of officers and 10.9% of enlisted in 1990, to 15.4% of officers and 14.4% of enlisted members in 2005). Overall, the number and ratio of women officers (34,821) to women enlisted (165,649) is one woman officer for every 4.8 women enlisted members. This ratio varies across the military Services with the Air Force having one female officer for every 4.1 female enlisted personnel, the Army having one female officer for every 4.6 female enlisted personnel, the Navy having one female officer for every 5.6 female enlisted personnel, and the Marine Corps having one female officer for every 9.0 female enlisted personnel.

Racial Minorities. Over one-third (35.9%) or 492,735 of Active Duty members identify themselves as a minority (i.e., African American, Hispanic American, Native American, Alaskan Native, Asian American, Pacific Islander, or multi-racial). Similar to the trend with women, the percent of Active Duty members who identify themselves as a minority is greater in 2005 than it was in 1990 (from 9.1% of officers and 28.2% of enlisted in 1990, to 22.4% of officers and

¹ Where available, the Demographics Report also provides data for fiscal years 1990, 1995, 2000, 2001, 2002, 2003 and 2004 to denote trends.

38.5% of enlisted members in 2005). The overall ratio of minority officers (50,691) to minority enlisted personnel (442,044) is one minority officer for every 8.7 minority enlisted personnel. This ratio varies across the military Services with the Air Force having one minority officer for every 6.1 minority enlisted personnel, the Army having one minority officer for every 8.0 minority enlisted personnel, the Navy having one minority officer for every 12.0 minority enlisted personnel, and the Marine Corps having one minority officer for every 12.7 minority enlisted personnel.

Geographic Location. While the Active Duty population is located throughout the world, the three primary areas in which Active Duty members are assigned are the United States and its territories (85.7%), Europe (7.4%) and East Asia (6.0%). The ten states with the highest Active Duty military populations are California (161,117), Virginia (138,057), Texas (110,028), North Carolina (104,491), Georgia (69,820), Florida (62,930), Washington (56,526), Hawaii (42,692), Kentucky (38,514), and South Carolina (37,616).

Age. Almost half of the Active Duty force is 25 years old or younger (46.6%), with the next largest age group being 26- to 30-year-olds (19.3%), followed by 31- to 35-year-olds (13.9%), 36- to 40-year-olds (11.4%) and those 41 years old or older (8.8%). Overall, the average age of the Active Duty force is 28.3. The average age for Active Duty officers is 34.6, and the average age for enlisted personnel is 27.1.

Education Level. The majority (86.2%) of officers have a Bachelor's or higher degree. Few (4.1%) enlisted members have a Bachelor's or higher degree, while most (94.1%) have a high school diploma and/or some college experience. In the past fifteen years, the percent of Active Duty members who have a Bachelor's and/or an advanced degree has decreased for officers (from 89.6% in 1990, to 86.2% in 2005) but has increased for enlisted (from 2.5% in 1990, to 4.1% in 2005).

Marital Status. Just over half (54.6%) of Active Duty military members are married, which is lower than the percent that were married in 1990 (57.2%). A majority (70.1%) of officers and over half (51.6%) of enlisted personnel report themselves as married. In addition, 6.9 percent of DoD's Active Duty members are in dual-military marriages². The Air Force has 12.9 percent of military members in dual-military marriages, the Navy has 5.4 percent, the Army has 4.9 percent, and the Marine Corps has 3.8 percent of military members in dual-military marriages. A small percentage of officer (1.9%) and enlisted personnel (3.5%) report that they received a divorce during the 2005 fiscal year.

Spouses, Children and Adult Dependents. There are fewer Active Duty members (1,373,534) than their associated family members (1,865,058). Over one-third (37.8%) of Active Duty members are married with children and 5.4 percent are single parents. The largest group of children is between birth and 5 years old (469,129). The next largest groups are between the ages of 6 and 11 years old (375,000) and between the ages of 12 and 18 years old (286,795). Substantially fewer children are between the ages of 19 and 23 years old (46,266). There are 8,130 adult dependents ages 23 and older among the families of Active Duty members.

² Dual military marriages refer to a military member in one Service being married to a military member in the same or different Service.

Reserve and Guard: (Selected Reserve) Member and Family Highlights

Reserve Component. The data pertaining to Reserve and Guard members depicts the Selected Reserve only, unless otherwise specified. The introduction to Section IV describes the composition of the Reserve forces of the United States, and explains why most data displays are limited to Selected Reserve personnel. The Reserve and Guard Force consists of 829,005 members and seven components. The Army National Guard (333,177) and Army Reserve (189,005) have the largest number of Selected Reserve members, followed by the Air National Guard (106,430), the Navy Reserve (76,466), the Air Force Reserve (75,802), the Marine Corps Reserve (39,938) and the DHS's Coast Guard Reserve (8,187). As the number of members in the Active Duty force has declined in the past fifteen years, the overall number of members in the Selected Reserve—when compared to 1990—has also decreased. The Reserve force is 28.9 percent smaller than it was in 1990 (when there were 1,165,336 Reservists).

Ratio of Ranks. The Selected Reserve is composed of 15.1 percent officer (125,528) and 84.9 percent enlisted personnel (703,477). Overall, there is one officer for every 5.6 enlisted personnel. This ratio varies across the Selected Reserve, with the Air Force Reserve and Navy Reserve having one officer for every 3.5 enlisted personnel, the Army Reserve having one officer for every 4.1 enlisted personnel, the Coast Guard Reserve having one officer for every 5.3 enlisted personnel, the Air National Guard having one officer for every 6.8 enlisted personnel, the Army National Guard having one officer for every 8.1 enlisted personnel, and the Marine Corps Reserve having one officer for every 10.7 enlisted personnel.

Women. Women comprise 142,292 or 17.2 percent of the Selected Reserve force. The percent of women in the Selected Reserve has continuously increased over the past fifteen years (from 14.4% of officers and 12.8% of enlisted in 1990, to 17.8% of officers and 17.0% of enlisted in 2005). Overall, the ratio of women officers (22,383) to women enlisted (119,909) is one woman officer for every 5.4 women enlisted members. This ratio varies widely across the Selected Reserve with the Air Force Reserve having one female officer for every 3.2 female enlisted personnel, the Army Reserve having one female officer for every 4.0 female enlisted personnel, the Coast Guard Reserve having one female officer for every 4.3 female enlisted personnel, the Navy Reserve having one female officer for every 4.6 female enlisted personnel, the Air National Guard having one female officer for every 7.7 female enlisted personnel, the Marine Corps Reserve having one female officer for every 8.6 female enlisted personnel, and the Army National Guard having one female officer for every 9.9 female enlisted personnel.

Racial Minorities. Almost one-third (30.4% or 251,692) of the Selected Reserve identifies themselves as a minority (i.e., African American, Hispanic American, Native American, Alaskan Native, Asian American, Pacific Islander, or multi-racial). The Selected Reserve is composed of 25,894 minority officers and 225,798 minority enlisted personnel, with one minority officer for every 8.7 minority enlisted personnel. This ratio varies widely across the Reserve Components, with the Navy Reserve having one minority officer for every 5.7 minority enlisted personnel, the Army Reserve and Coast Guard Reserve each having one minority officer for every 6.4 minority enlisted personnel, the Air Force Reserve having one minority officer for every 7.5 minority enlisted personnel, the Air National Guard having one minority officer for every 10.9 minority enlisted personnel, the Army National Guard having one minority officer for every 13.8 minority enlisted personnel, and the Marine Corps Reserve having one minority officer for every 18.8 minority enlisted personnel. The overall minority representation in the Selected Reserve has increased from 12.3 percent officers and 24.0 percent enlisted personnel in 1990 to 20.6 percent officers and 32.1 percent enlisted personnel in 2005.

Geographic Location. The majority (821,355 or 99.1%) of the Selected Reserve is located throughout the United States and its territories. The ten states with the highest Selected Reserve population are California (58,053), Texas (49,912), Pennsylvania (35,209), Florida (32,285), New York (30,222), Ohio (27,900), Georgia (26,998), Alabama (25,958), Virginia (24,999), and Illinois (23,343), respectively.

Age. The largest age group of the Selected Reserve is 25 years old or younger (31.2%), with the next largest group being those 41 years old or older (25.8%), followed by 36- to 40-year-olds (15.5%), 31- to 35-year-olds (13.7%) and 26- to 30-year-olds (13.7%).

Education Level. The majority (85.5%) of Selected Reserve officers have a Bachelor's or higher degree. Most enlisted members (86.4%) have a high school diploma and/or some college experience, and 7.9 percent of enlisted members have a Bachelor's degree or higher. In the past fifteen years, the percentage of Selected Reserve who have a Bachelor's and/or advanced degree has increased for both officers (from 72.0% in 1990 to 85.5% in 2005) and enlisted personnel (from 6.7% in 1990 to 7.9% in 2005).

Marital Status. Just over half (51.4%) of the Selected Reserve/Guard are married as compared to the 53.0 percent in 1990 who were married. For 2005, 38.6 percent of Selected Reserve females and 54.1 percent of Selected Reserve males are married. About three-fourths (73.8%) of Selected Reserve officers and 47.4 percent of Selected Reserve enlisted personnel report themselves as married. In addition, 2.6 percent of the Selected Reserves report that they are in a dual-military marriage. A small percentage of Selected Reserve officers (2.3%) and enlisted personnel (2.5%) report that they received a divorce sometime during the 2005 fiscal year.

Spouses, Children and Adult Dependents. There are fewer Selected Reserve members (829,005) than their associated family members (1,141,735). Just over one-third of the Selected Reserve (34.8%) is married with children and 8.2 percent are single parents. The largest group of children is between the ages of 6 and 14 years (338,069), and the next largest groups are between birth and 5 years (179,120), and 15 through 18 years (127,265). The smallest group of children is between the ages of 19 and 22 years (78,840). In addition, there are 1,762 adult dependents 21 years and older claimed as dependents by the families of Selected Reserve members.

Active Duty and Reserve and Guard Summary Table

INTRODUCTION

This Demographics Report presents a synthesis of demographic information describing Active Duty (Army, Navy, Marine Corps, Air Force, DHS's Coast Guard) and Reserve Component (Army National Guard, Army Reserve, Navy Reserve, Marine Corps Reserve, Air National Guard, Air Force Reserve and DHS's Coast Guard Reserve) members and their families. It serves as a reference tool for professionals who develop policy or deliver programs and services to military members and families in the Armed Forces. For previous years' reports, please visit the Military HomeFront Portal at <http://militaryhomefront.dod.mil>.

The 2005 Report

To provide a holistic profile of the entire military community, the 2005 Report presents demographic information for the Active Duty and Reserve and Guard personnel. In addition, selected Census data are presented as a point of reference, and military demographics trends for 1990, 1995, 2000, 2001, 2002, 2003, and 2004 are included wherever possible.

Presentation of Information

Military member demographics and family demographics are presented separately for Active Duty and Reserve and Guard populations as follows:

- Section I: DoD Total Force
- Section II: Active Duty Members
- Section III: Active Duty Families
- Section IV: Reserve and Guard Members
- Section V: Reserve and Guard Families
- Section VI: Reference Tables
- Data Sources and References.

The data contained in this publication were derived from a variety of sources and, in general, only data that are available on a consistent basis for all Services are presented. The majority of data are managed by the Defense Manpower Data Center, particularly the Active Duty Master File and Family File, the Reserve Components Common Personnel Data System and Family File, and the Fiscal Year 2005 Official Guard and Reserve Manpower Strengths and Statistics (1147/1148) book.

All exhibits included in this report contain source citations, and the Data Sources and References section of this document provides a reference for all data sources. Readers needing additional information are encouraged to directly access the listed sources.

Guidelines for Interpreting Data

Guiding principles for interpreting data include:

- Numbers for population groups (e.g., Active Duty, enlisted) may vary across exhibits as a result of different data sources, missing data and/or rounding.
- Percents may not total to 100 due to rounding or missing data.
- Warrant Officers are included with Officers unless otherwise noted.
- "Senior enlisted" refers to pay grades E-7 to E-9, while "senior officers" refers to pay grades O-7 to O-10.

In the Active Duty sections of this report, data are presented for the four DoD service branches (Army, Navy, Marine Corps, and Air Force). Some information about the DHS's Active Duty Coast Guard is presented in the DoD Total Force section of this report. In the Reserve and Guard Military Members section, the label "Total DoD" is used to reflect the six Reserve Components (Army National Guard, Army Reserve, Navy Reserve, Marine Corps Reserve, Air National Guard and Air Force Reserve) under DoD, while "Total Selected Reserve" includes DHS's Coast Guard Reserve data in addition to data from the DoD Reserve Components.

The data pertaining to Reserve and Guard members depicts the Selected Reserve and the National Guard and does not include any other Ready Reserve forces (i.e., Individual Ready Reserve and Inactive National Guard) unless otherwise specified. The introduction to Section IV describes the composition of the Reserve forces of the United States and explains why most data displays are limited to Selected Reserve personnel.

All data pertaining to Active Duty and Selected Reserve family members (i.e., spouses, children and dependent adults) are extracted from the Defense Enrollment and Eligibility Reporting System (DEERS). The data are dependent on the military members reporting the necessary information.

TOTAL DoD FORCE

1.01. Number and Percent of Military Force Personnel (N=3,566,943)

The total military force is comprised of 3,566,943 people who are Active Duty and Reserve and Guard members from all branches of the DoD, civilian personnel who support the DoD, and the DHS's Coast Guard. DoD's Active Duty members make up 38.5 percent of the total military force. Data for all Active Duty members and their families are presented in Sections II and III.

All Reserve and Guard manpower is assigned to one of three Reserve Component categories: the Ready Reserve, the Standby Reserve or the Retired Reserve. The Ready Reserve makes up 31.2 percent of the total military force. The Ready Reserve is comprised of the Selected Reserve, the Individual Ready Reserve, and the Inactive National Guard. Because Selected Reserve members train throughout the year and participate annually in Active Duty training exercises, they are the primary focus of the Reserve sections of this report. The DHS's Coast Guard Reserve members are frequently called for duty, therefore, their data are included as well. Data for all Selected Reserve members and their families are presented in Sections IV and V.

ACTIVE DUTY

1.05. DoD Active Duty and DHS Coast Guard Active Duty Trends: 1990-2005

Today's DoD Active Duty force is 32.3 percent smaller than it was in 1990. The percent reported at the end of each line represents the relative difference in the size of the force in 2005 compared to the size of the force in 1990. The Navy has had the largest percent decrease across all of the Service branches, while the DHS Coast Guard has had an increase in the number of members compared to 1990.

Note: Data are represented ONLY for the years indicated. Data for the years in between are NOT represented in this graph.

DOD CIVILIAN PERSONNEL

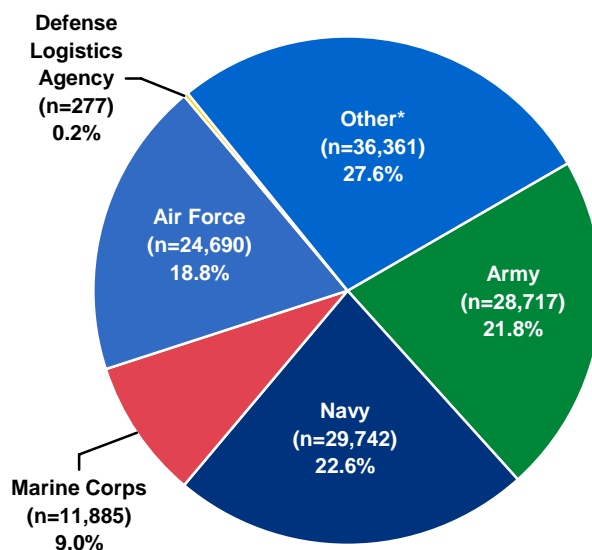

DoD civilians are divided into two primary categories. Appropriated Funds (AF) civilian employees are funded by congressional appropriations, while Non-Appropriated Funds (NAF) civilian employees are not funded by congressional appropriations. Rather, NAF positions are funded by revenue generating activities.

MARITAL STATUS (CONT.)

2.50. Estimated Divorces by Service Branch and Pay Grade

The DoD collects information on marital status year to year. The number of divorces are estimated by comparing the number of people who indicated that they were married in 2004, but no longer indicate a status of married in 2005. Additionally, the number of divorces displayed are a count of divorces that occurred in 2005, not a count of all military members who are divorced. The percents are calculated by taking the count and dividing it by the number of people that were married in 2004.

Data regarding the employment status of spouses of Active Duty officers are from a DMDC-sponsored survey conducted in August 2005. The respondents to the survey were Active Duty officers who were married or separated. They reported on the employment status of their spouses. In calculating spouse employment status, an individual must have worked in the past week to be considered employed; therefore up to one quarter of traditional Reservists (without other employment) could be categorized as unemployed or not in the labor force.

Forty-eight percent of Active Duty officer spouses are in the civilian work force, while another 43 percent are not employed and are not looking for employment.

The respondents to the survey were Active Duty enlisted members who were married or separated. They reported on the employment status of their spouses. In calculating spouse employment status, an individual must have worked in the past week to be considered employed; therefore up to one quarter of traditional Reservists (without other employment) could be categorized as unemployed or not in the labor force.

Over half (56%) of Active Duty enlisted spouses are in the civilian work force, while 30 percent are not employed and are not looking for employment.

4.19. Number and Ratio of Selected Reserve Minority Officers and Minority Enlisted by Reserve Component

The ratio of minority officers to minority enlisted personnel varies widely across the Reserve components. At one end of the spectrum, the Navy Reserve has one minority officer for every 5.7 minority enlisted personnel. At the other end, the Marine Corps Reserve has one minority officer for every 18.8 minority enlisted personnel. The overall ratio of minority officers to minority enlisted personnel (1 to 8.7) is lower than the total ratio of all Selected Reserve officers to all Selected Reserve enlisted members (1 to 5.6).

MARITAL STATUS (CONT.)

4.52. Estimated Divorces by Reserve Component and Pay Grade

The DoD collects information on marital status year to year. The number of divorces are estimated by comparing the number of people who indicated that they were married in 2004, but no longer indicate a status of married in 2005. Additionally, the number of divorces displayed are a count of divorces that occurred in 2005, not a count of all military members who are divorced. The percents are calculated by taking the count and dividing it by the number of people that were married in 2004.

2005 BASIC MONTHLY PAY

Pay grades are administrative classifications used primarily to standardize compensation across the military services. The "E" in E1 stands for "enlisted" while the "1" indicates the pay grade for that position. The other pay categories are "W" for warrant officers and "O" for commissioned officers. Basic monthly pay for 2005 is rounded to the nearest dollar (e.g., \$2,343.60 is rounded to \$2,344 and \$2,699.40 is rounded to \$2,699). If no dollar amount is listed, then a dollar figure is not established for that category.

2005 DRILL PAY FOR OFFICERS

Drill pay is the amount Reservists are reimbursed for training. One drill is at least three hours of training, and four drills normally represents one weekend of training (equaling 8 hours on Saturday and 8 hours on Sunday). If no dollar amount is listed, then a dollar figure was not established for that category. When an officer from a Reserve Component is called for active duty during the 2005 calendar year, the Service member is salaried for his/her equivalent pay grade at the Basic Pay amount.

ARMED FORCES COMPARATIVE PAY GRADES AND RANKS

While pay grades are administrative classifications used primarily to standardize compensation across the military services, ranks indicate a level of responsibility (for personnel, equipment, and mission), which grows with each increase in rank.
